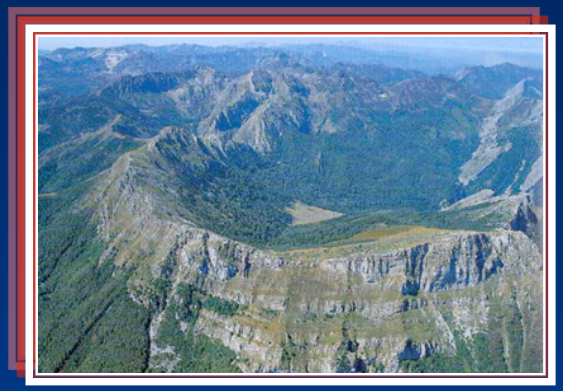
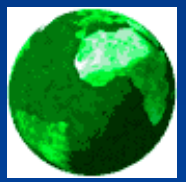
DUNIA DEL PILAR NAVAS DÍAZ





DEFINITIONS

MOUNTAINS

PLATEAUX

RIVERS

VALLEYS

PLAINS

DEPRESSIONS

RIVERS

Streams of water coming from mountains and ending in a sea or ocean.

VALLEYS

Long depressions between mountain ranges or through plains.

PLAINS

Flat terrains usually less than 200 metres above sea level. Rivers run through them, excavating valleys.

DEPRESSIONS

Terrains or areas under sea level.

Massís Galaic
Serralada Cantàbrica
Muntanyes Basques
Pirineus
Depressió de l'Ebre
Meseta septentrional nord
Sistema Ibèric
Sistema Central

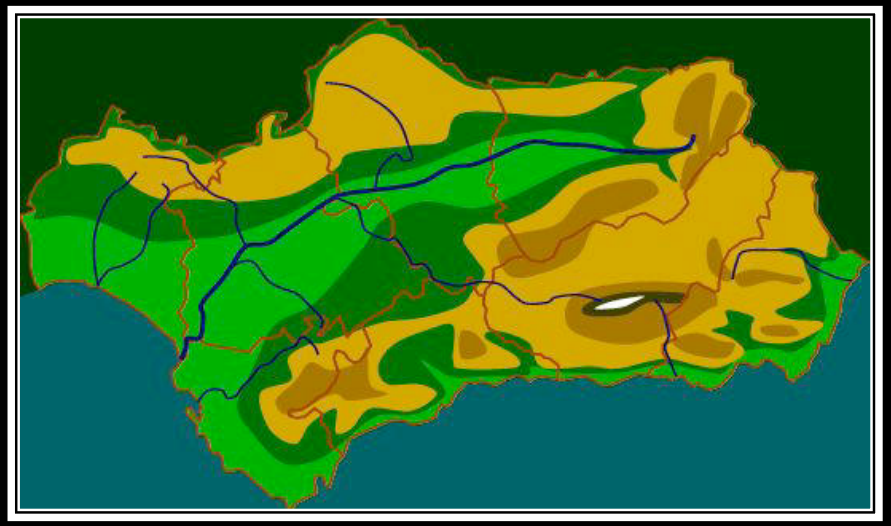
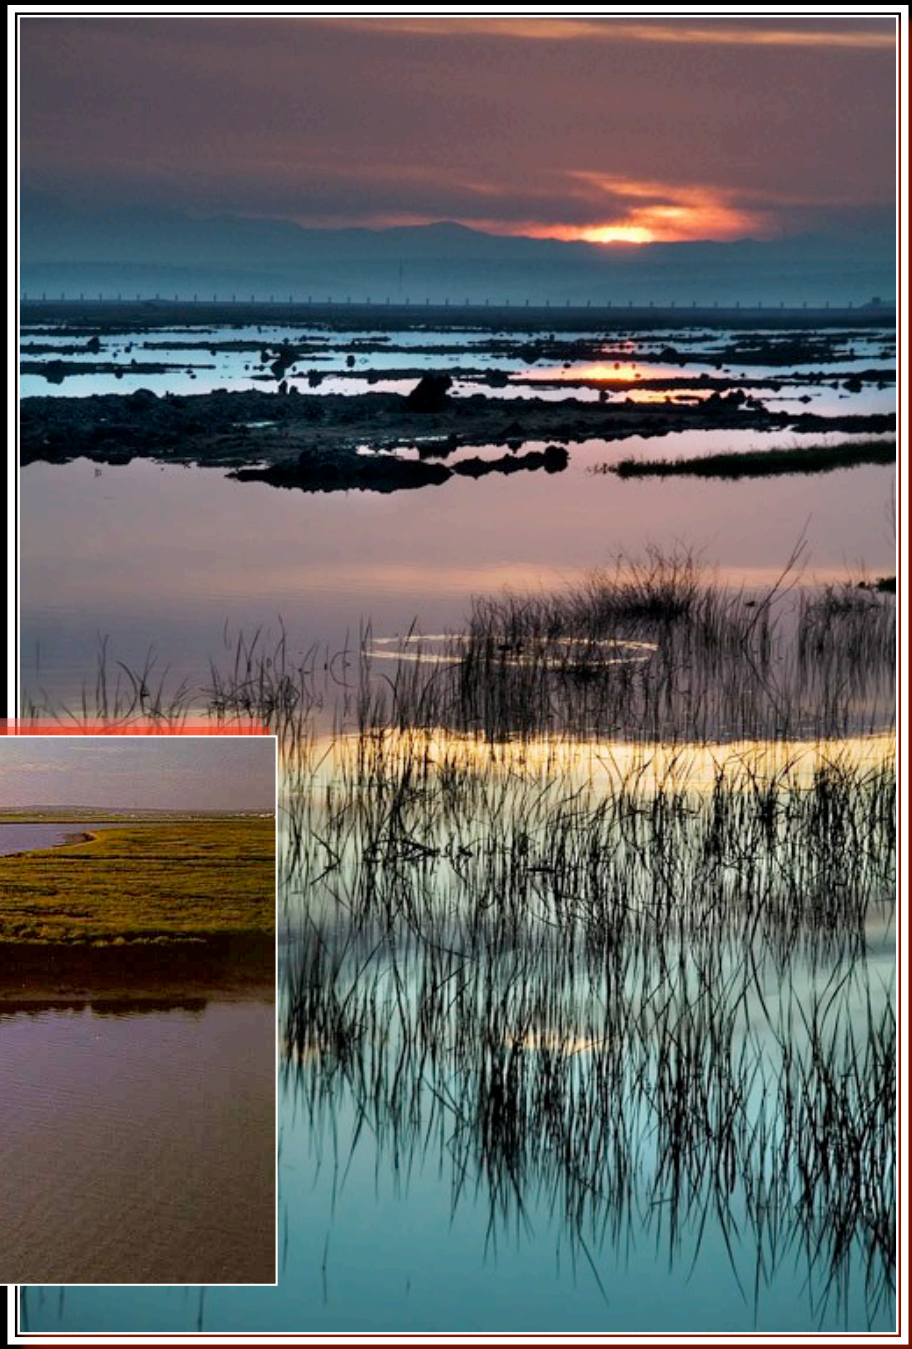
Meseta.
Serres interiors.
Voreres muntanyoses de la Meseta.
Unitats exteriors
Serralades exteriors.
Depressions exteriors.
Planures litorals.
Relleu volcànic.





PLATEAUX

Flat surfaces elevated from the terrains around.

© Rolf Hicker

MOUNTAINS

Great elevations of terrain. They are usually together forming ranges, systems or belts.
